### *Population Ageing in Latin America*

provides a platform for multidisciplinary discussion, exchange, and the sharing of research and information related to Population Ageing in Latin America. It is the research communication platform of LARNA (Latin American Research Network on Ageing) at the Oxford Institute of Population Ageing, University of Oxford.

We invite contributions from academics, policy makers and practitioners in the region for open discussions, cross-disciplinary debates, including theoretical and empirical research and methodological innovation and development. Contributions around social policies and the roles of the civil society are also welcome.

Population Ageing in Latin America will also act as newsletter for LARNA, and we invite book reviews, notices of seminars and conferences.
